What do I do if a hostile intruder situation occurs on campus?

When hostile person(s) is actively causing deadly harm or the imminent threat of deadly harm is on the campus, we recommend the following: 1] Remove yourself from harm's way. 2] If communication is available, call 911, then call the school if it can be done safely. 3] Do not stay in open hallways. 4] Do not sound the fire alarm. A fire alarm would signal the occupants in the rooms to evacuate the building and thus place them in potential harm as they attempted to exit. 5] Barricade yourself in the room with furniture, a closet or anything you can push against the door. 6] Stay away from windows. 7] Turn all lights and audio equipment off. 8] Try to stay calm and be as quiet as possible. 9] If you are caught in an open area such as a hallway or open classroom area, you must decide what course of action to take; a] You can try to hide, but make sure it is a well hidden space or you may be found as the intruder moves through the building looking for victims. b] If you decide to run, do not run in a straight line. Keep as many objects as possible between you and the hostile person(s). (ie; doors, columns, trees, cars etc.), c] If the person(s) is causing death or serious physical injury to others and you are unable to run or hide, you may choose to play dead if other victims are around you. d] The last option you have if caught in an open area may be to fight back. This will be a dangerous choice, but it may be your best option. e] If you are caught by the intruder, and make the decision not to fight back, then follow their directions as calmly as possible and do not look them directly in the eyes. f] Once police arrive, follow all of their commands. This may involve being handcuffed until the police have the situation completely under control.
